

BlueCross BlueShield of Montana

SMART CENSUS IMPORT TOOL • SCIT Blue Balance Funded (BBF) Reference Guide Version 1

Blue Cross and Blue Shield of Illinois, a Division of Health Care Service Corporation, a Mutual Legal Reserve Company, an Independent Licensee of the Blue Cross and Blue Shield Association

Table of Contents

- Version 1 Release Notes
- Steps for Entering a Group's Census
 - Small Group Enrollment
 - Middle Market Enrollment
- Technical References
 - Enable Macros
 - Macros Security Risk
 - <u>Macros Remove Mark of the Web</u> (Instructions)
 - Freeze Panes, Filter and Sort Features
 - <u>AutoFill Feature</u>
 - <u>AutoFill Select Columns Reference Tables</u>
 - <u>Reference Tables: Small Group Enrollment Census Template</u>
 - How to Report Issues

NOTE: The Smart Census Import Tool (SCIT) is identical for all five divisions. This reference guide uses representative screenshots from Small Group Illinois and Mid Market Montana and will call out differences for each state, if applicable.

Compatibility	 Version 1 is compatible with Excel 2013 and newer versions.
Enable Macros	 Enable Macros feature using instructions provided in Technical References.
Using SCIT	 NOTE: Save Smart Census Import Template (SCIT) on your local drive before using. If working from a network drive, SCIT performance may be slower. Keep only one SCIT file open at a time. If multiple windows are open, SCIT will not behave as expected.
Copy/Paste	 Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.
Find & Replace	 This functionality is not available in Tool. If you need to use this functionality, update source document and paste copied data as VALUES into Tool to avoid overwriting Excel formatting via Paste Special.

Version 1 Release Notes

Enrollment Small Group / Middle Market	 Ancillary products removed. When validating data, spouse and dependent addresses are not removed.
Enrollment Small Group	Applicable for all states.
Enrollment Middle Market	Applicable for Montana and New Mexico only
Enhancement	 Removed Save As functionality. User no longer has to save file with a Group name and assign a location.

Steps for Entering a Group Census

- 1. Open Smart Census Import Tool (SCIT) and save under the group's name.
- 2. Complete Census Tool Setup Form.
- 3. Enter data in the **Census Template** tab.
- If the Census is provided on a separate spreadsheet, click Map button on the Setup Form OR click the Green button to enter data. Click AutoFill button to systematically default a value for select columns, as applicable.
- 5. Click **File > Save** to validate data.
- 6. An Error List will be generated.
- Upon successful validation, SCIT is ready to be uploaded in the Group Sales tool or an extract can be generated for automation.
- 8. Enter Census for the next group.

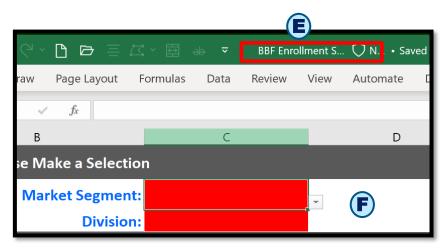

Small Group Enrollment Census Template

Open SCIT and Save Under Group Name

- A. From Excel menu, select File > Open and navigate to the folder where SCIT is saved, select SCIT and click Open.
- B. On File > Open, click Enable Content button. Skip this step if macros are enabled through File > Options menu. Please see "Enable Macros" in Technical References for instructions.
- C. In the pop-up box, type in the Group Name and click OK. Do not include spaces or any special characters.
- D. Select a Folder to save the Group's Census, and click OK.
- E. The file is saved under the group's name along with the date and time stamp.
 - Original SCIT file stays intact and is not overwritten.
- F. Setup Form will display.
 - Select Market Segment: SMALL GROUP OR MID MARKET
 - Select a **Division** from dropdown list.

Complete Setup Form

Setup Form values are used to:

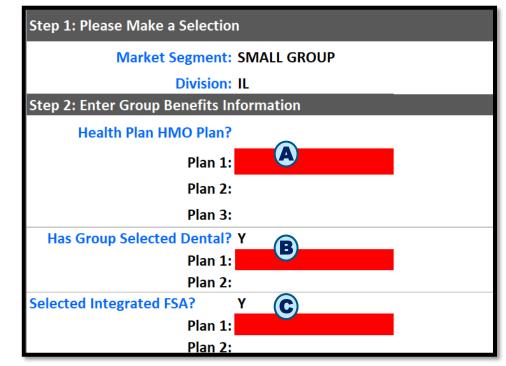

- Display/hide Census columns in the Import Census Template tab.
- Display dropdown values for some columns based on **Division**.

Complete the required fields highlighted in red.

- A. Health Plan HMO Plan? Select Y or N and add Plan(s).
- **B.** Has Group Selected Dental? If Y, add Plan(s).

NOTE on Plans:

- When Plan codes are changed in Setup Form, the old codes will be highlighted in yellow in the Import Census Template tab.
- SCIT only validates the Plan codes entered. It does not check against the Small Group & Middle Market Enrollment Tool to validate that an eligible Plan code has been entered.
- When Plan codes are changed in the Setup Form, the old codes will be highlighted in yellow in the Import Census Template tab.
- C. Selected Integrated FSA? If Y, add Plan(s).

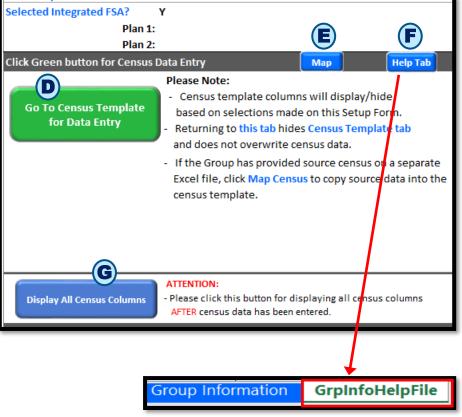

Complete Setup Form (con't)

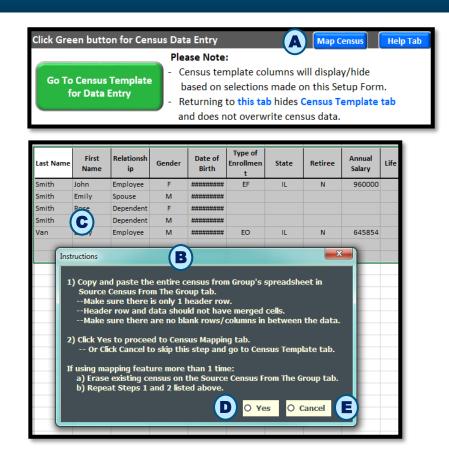

- D. Click the Green button to navigate to the Import Census Template for manual data entry.
- E. Click Map button if you received the Census from the group on a separate spreadsheet (Source).

This feature will enable you to copy and map the Source columns to the Template columns. After columns are mapped, data will be copied over to the **Import Census Template** systematically per the mapping.

- F. Click the Help Tab button to navigate to the GrpInfoHelpFile tab. This tab has detailed specifications for all the entries on the Group Information tab.
- G. Click Blue button to display all Census columns on the Import Census Template.

- A. Click Map button if you have Census on a separate spreadsheet from the group.
- **B. Source Census From The Group** tab displays along with an **Instructions** box.
- C. Copy and paste Census information from the Source spreadsheet to this worksheet.
 NOTE: Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.
 - There should only be one header row.
 - Header row and data should not have merged cells.
 - Make sure there are no blank rows OR columns in between the data.
- D. Click Yes to proceed to the Census Mapping tab after pasting the Source Census.
- E. Click Cancel to skip Map Census feature and go to the Census Template.

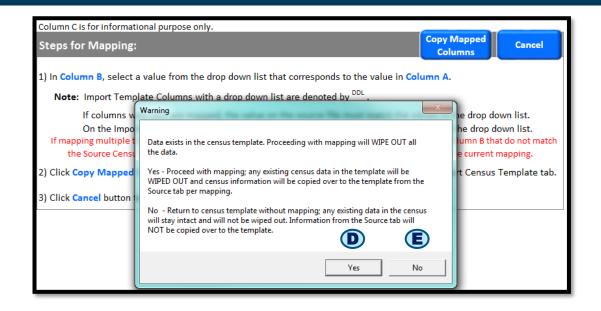

NOTE: If using mapping feature more than once:

- Delete the existing Census on the Source Census From The Group worksheet (tab).
- Repeat steps C and D listed above.

	Small Group Enrollment Import Census Template Columns	Map Group's Source Census Columns (Select from drop down list)	Source Census Column Letter (For Information Only)	Mapping Source Columns to Import Census Template Columns

1	2 SSN	SSN	T	
	Address 1	Home Address	L	

A. Census Mapping tab displays.

- Column A displays column headers from the ACA Small Group / Mid Market Enrollment Import Census Template Columns.
- Column B has a dropdown list with values which are column headers from the source file.
- Column C is for information purpose only.
- Instructions display to the right.
- B. In Column B, select a value from the dropdown list that corresponds to the value in Column A.
- C. Click the Copy Mapped Columns button to copy the mapped source columns systematically to the Import Census Template tab.
 - Click the **Cancel** button to skip the mapping and go to **Import Census Template** tab to enter Census.

D. Click Yes to proceed with mapping. If data exists on the Census Template, a Warning message displays.

NOTE: Any existing Census data in the Import Census Template will be WIPED OUT and the Census information will be copied over to the Template from the Source tab per mapping.

- Mapped data is systematically copied over to the Import Census Template.
- Complete Census entry as needed.
- E. Click No to return to the Import Census Template without mapping. Existing data will not be overwritten and will remain unchanged.

Enter Census Data

General Infor	mation	\frown								
Relationship Code	Waive All Coverage	A Waive Reason Code	First Name	Mid Init	Last Name	Name Suffix	Date Of Birth	Gender (j)	ssn (i)	
Employee	D									

Clicking the **Green button** on the **Setup Form** navigates to the **Import Census Template** tab.

- A. Column headers are Read Only. Columns cannot be deleted or moved.
- B. Columns display/hide, and some dropdown list values, are determined by Setup Form values. See "Table 1" in Technical References for details.
- **C.** Row #3 **Relationship Code** value is defaulted to **Employee**. *Do not change this value.*
- **D. Starting from Row #3**, rows can be Inserted or Deleted as needed.

Enter Census Data

E. Zip code is required for all Employees. If source file has extended Zip Codes, paste in SCIT "as is". These values will be highlighted in yellow and on File > Save validation, only the first 5 numbers of the Zip Code will be saved.

- F. After entering in Zip Code, click the State from Zip button in State cell to populate the State for all members. State will fill in if there is no State code already.
- G. The entire cell is highlighted in red for required columns. The entire cell is highlighted in yellow when there is a data mismatch. For DOB column over-age dependents (26 & over), the cells are highlighted in purple and 65 & over entries are highlighted in green for information purposes.
- H. When you type in a value and click Enter:
 - 1) If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
 - 2) Retry returns you to the typed-in value for editing and Cancel wipes out the typed-in value and returns you to the cell.
- I. Help icons and AutoFill buttons are available in the column headers.

Enter Census Data - Speed Jumps and Medicare

B. Zip, State and Marital Status - allowed for Spouse and Dependents.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	AUTO FILL State from zip State	Zip Code	Home/Cell Phone	Business Phone	Email Address	B Marital Status
(i)	(i)	()	(j)	i	(i)	í	í	(j	í	(j)	(j
											Married
Employee	N		John		Doe	IL	60515				
Spouse			Jane		Doe	IL	60515				
Disabled Dependent			Peter		Doe	IL	60515				

C. Medicare Eligible – when Medicare Eligible is selected the Medicare HIC Number, Medicare Reason and Medicare Primary or Secondary are mandatory.

Relationship Code	Waive All Coverage (j)	Waive Reason Code (j)	First Name	Mid Init	Last Name	Medicare Eligible (j)	Medicare HIC Number i	C Medicare Reason	Medicare Primary or Secondary i	Plan A Start Date	Plan A End Date	Plan B Start Date ()	Plan B End Date i
Employee	N		John		Doe	Y							
Spouse			Jane		Doe	Y							
Disabled Dependent			Peter		Doe	N							

Enter Census Data

- For Employment Status and Medicare Eligible columns, the cell value drives the display/hide behavior of the corresponding dependent data columns.
 - When you enter COBRA as the value in the Employment Status cell, additional COBRA columns will become available for completion. Similarly, entering IL Cont as the value will cause IL Continuee columns to display for completion.
 - A value of Y in the Medicare Eligible cell will cause Medicare columns to display. See "Table 2" in Technical References.
- Returning to the Group Information tab hides other tabs: Import Census Template tab, Error List tab and Help File tab.
 - To return to, and display the Import Census Template tab, click the Green button.
 - To return to, and display the Error List tab, click
 Green button and click File > Save.
 - To return to, and display the Help File tab, click the Help File tab.

SSN dashes

 If the source SSN value has dashes, paste into SCIT "as is". These values will be highlighted in yellow. On File > Save validation, dashes will be removed systematically.

Date values

- While typing dates include "/"
- If the date format in the source file is formatted with a different date format than MM/DD/YYYY, you can still copy and paste it into SCIT "as is". The date will be reformatted systematically to MM/DD/YYYY when you click File > Save.

Text values

- If source values are longer than the expected length, they are truncated systematically when you click File > Save.
- Values can be copied and pasted as needed onto the Census columns.

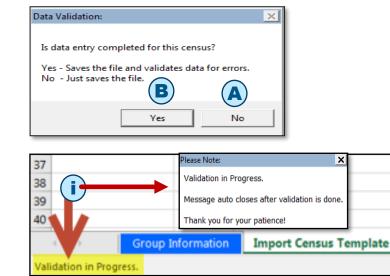

NOTE: Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.

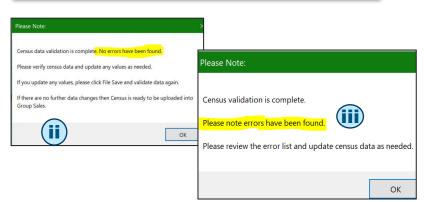

- If copying data from an external source, please make sure that the source column format matches the format of the corresponding Import Census Template column.
- If copy/pasting data from an external source causes cells to lock in SCIT, click File > Save to unlock the cells.

Data Validation

Once data entry is complete, click **File > Save** to validate the Census data. A **pop-up box** will display: **Is data entry completed for this Census?** with **Yes** and **No** buttons.

- A. Click No if you want to save existing data and return to complete the Census entry later.
 NOTE: Validation rules do not run.
- B. Click Yes if Census entries are complete. Existing data is saved. If values are blank in columns where the AutoFill feature is available, a default value will be entered systematically. Final validation rules will run.
 - i. Validation In Progress indicators will display:
 - Excel Status bar (bottom left corner)
 - Validation in Progress pop-up box
 - ii. If no errors are found, confirmation box displays and completed Census can be processed per current business process.
 - iii. If there are any errors, a message box displays indicating that errors have been found. Click OK.

Data Validation Error List

- A. To update the values, click the Import Census Template tab. Change the values as needed. You can toggle between the Error List and Import Census Template tabs.
- **B.** If there are data errors, the **Error List** tab will display:
 - In Cell column specifies the cell location of the error.
 - Error Description column specifies the column and the nature of the error.

Once you have corrected any errors, validate data again by clicking **File > Save**.

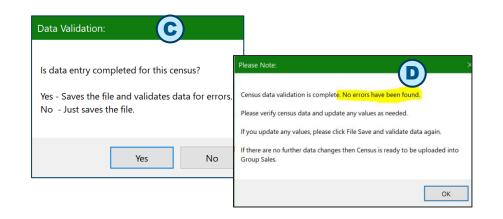

- C. Select Yes in the Is data entry completed for this census? message box.
- D. If no errors are found, a confirmation box displays and completed Census can be processed per current business process.

In Cell Error Description C7 Relationship Code is required.

D8 Gender is required for Employee, Spouse and Dependent(s). E8 Date of Birth is required for Employee, Spouse and Dependent(s). C9 Relationship Code is required. D10 Gender is required for Employee, Spouse and Dependent(s). E10 Date of Birth is required for Employee, Spouse and Dependent(s). D11 Gender is required for Employee, Spouse and Dependent(s). E11 Date of Birth is required for Employee, Spouse and Dependent(s). D12 Gender is required for Employee, Spouse and Dependent(s). E12 Date of Birth is required for Employee, Spouse and Dependent(s). C13 Relationship Code is required. D14 Gender is required for Employee, Spouse and Dependent(s).

On Successful Validation, Upload SCIT into Small Group & Middle Market Enrollment Tool

The upload steps have not changed.

- A. In the Small Group & Middle Market Enrollment Tool, navigate to the Group's Member Census page.
- B. Click the Import Census button.
- C. When the Import Census pops up, click Browse.
- D. Navigate to the folder that has SCIT with the group's filename.

- E. Select the file and click **Open**.
- F. Filename displays in the Select File to upload box.
- G. Overwrite existing Census information is selected by default. If needed, select Append radio button to add to existing Census information.
- H. Click the Load File button.

The imported template is the minimum version (**one version minus the current version**). If user imports a template outside minimum version, the following error message will display:

A. The imported census template version is out of date and is only valid until <MM/DD/YYYY>. Please download the current census template version from the link above.

Enter Census for the Next Group

To enter Census for the next Group, **File Close** prior group's open SCIT file.

Repeat Steps 1 through 6.

Middle Market Enrollment Montana & New Mexico ONLY Census Template

Complete Setup Form (MT and NM only)

Setup Form values are used to:

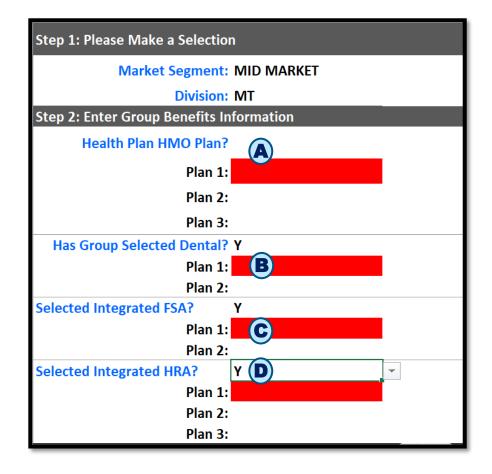

- Display/hide Census columns in the Import Census Template tab.
- Display dropdown values for some columns based on Division (MT or NM)

Complete the required fields highlighted in red.

- A. Health Plan HMO Plan? Select Yor N and add Plan(s).
- **B.** Has Group Selected Dental? If Y, add Plan(s).

NOTE on Plans:

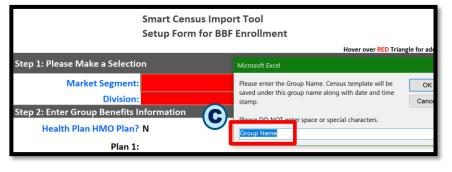

- When Plan codes are changed in Setup Form, the old codes will be highlighted in yellow in the Import Census Template tab.
- SCIT only validates the Plan code has been entered. It does not check against the Small Group & Middle Market Enrollment Tool to validate that an eligible Plan code has been entered.
- When Plan codes are changed in the Setup Form, the old codes will be highlighted in yellow in the Import Census Template tab.
- **C.** Selected Integrated FSA? If Y, add Plan(s).
- D. Selected Integrated HRA? If Y, add Plan(s).

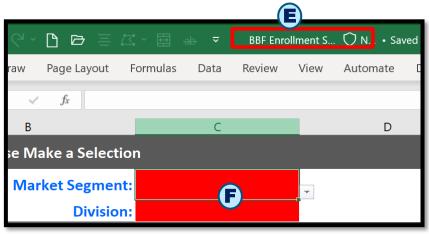

Open SCIT and Save Under Group Name

- A. From Excel menu, select File > Open and navigate to the folder where SCIT is saved, select SCIT and click Open.
- B. On File > Open, click Enable Content button.
 Skip this step if macros are enabled through
 File > Options menu. Please see "Enable Macros" in Technical References for instructions.
- C. In the pop-up box, type in the Group Name and click OK. Do not include spaces or any special characters.
- D. Select a Folder to save the Group's Census, and click OK.
- E. The file is saved under the group's name along with the date and time stamp.
 - Original SCIT file stays intact and is not overwritten.
- F. Setup Form will display.
 - Select Market Segment: SMALL GROUP OR MID MARKET
 - Select a Division from dropdown list.

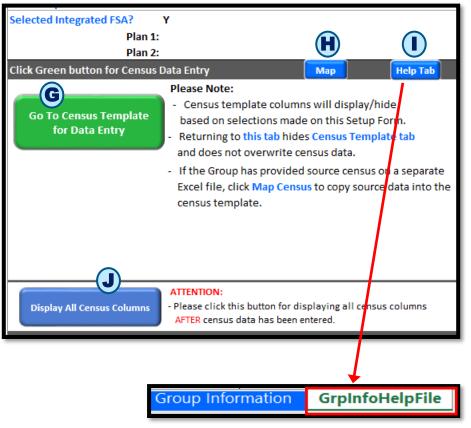

Complete Setup Form

- G. Click the Green button to navigate to the Import Census Template for manual data entry.
- H. Click Map button if you received the Census from the group on a separate spreadsheet (Source).
 - This feature will enable you to copy and map the Source columns to the Template columns. After columns are mapped, data will be copied over to the Import Census Template systematically per the mapping.
- Click the Help Tab button to navigate to the GrpInfoHelpFile tab. This tab has detailed specifications for all the entries on the Group Information tab.
- J. Click Blue button to display all Census columns on the Import Census Template.

- A. Click Map button if you have Census on a separate spreadsheet from the group.
- **B. Source Census From The Group** worksheet (tab) displays along with an **Instructions** box.
- **C.** Copy and paste Census information from the **Source** spreadsheet to this worksheet.

NOTE: Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.

- There should only be one header row.
- Header row and data should not have merged cells.
- Make sure there are no blank rows OR columns in between the data.
- D. Click Yes to proceed to the Census Mapping tab after pasting the Source Census.
- E. Click Cancel to skip Map Census feature and go to the Census Template.

	nsus Tem Data Entry	plate -	 Please Note: Census template columns will display/hide based on selections made on this Setup Form. Returning to this tab hides Census Template tab and does not overwrite census data. If the Group has provided source census on a separate Excel file, click Map Census to copy source data into the census template.

A. Census Mapping tab displays.

- Column A displays column headers from the ACA Small Group / Mid Market Enrollment Import Census Template Columns.
- Column B has a dropdown list with values which are column headers from the source file.
- Column C is for information purpose only.
- Instructions display to the right.
- **B.** In **Column B**, select a value from the dropdown list that corresponds to the value in **Column A**.
- C. Click the Copy Mapped Columns button to copy the mapped source columns systematically to the Import Census Template tab.
 - Click the **Cancel** button to skip the mapping and go to **Import Census Template** tab to enter Census.

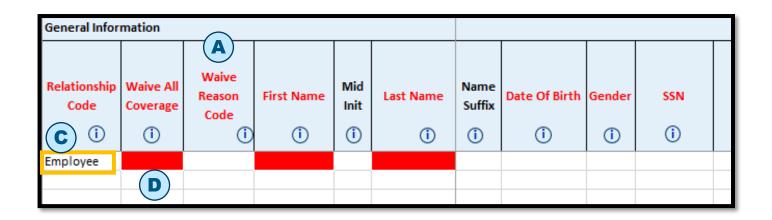

D. Click Yes to proceed with mapping. If data exists on the Census Template, a Warning message displays.

NOTE: Any existing Census data in the Import Census Template will be WIPED OUT and the Census information will be copied over to the Template from the Source tab per mapping.

- Mapped data is systematically copied over to the Import Census Template.
- Complete Census entry as needed.
- E. Click No to return to the Import Census Template without mapping. Existing data will not be overwritten and will remain unchanged.

Enter Census Data

Clicking the **Green button** on the **Setup Form** navigates to the **Import Census Template** tab.

- A. Column headers are Read Only. Columns cannot be deleted or moved.
- B. Columns display/hide, and some dropdown list values, are determined by Setup Form values. See "Table 1" in Technical References for details.
- **C.** Row #3 **Relationship Code** value is defaulted to **Employee**. *Do not change this value.*
- **D. Starting from Row #3**, rows can be Inserted or Deleted as needed.

Enter Census Data

E. Zip code is required for all Employees. If source file has extended Zip Codes, paste in SCIT "as is". These values will be highlighted in yellow and on File > Save validation, only the first 5 numbers of the Zip Code will be saved.

- F. After entering in Zip Code, click the State from Zip button in State cell to populate the State for all members. State will fill in if there is no State code already.
- G. The entire cell is highlighted in red for required columns. The entire cell is highlighted in yellow when there is a data mismatch. For DOB column over-age dependents (26 & over), the cells are highlighted in purple and 65 & over entries are highlighted in green for information purposes.
- H. When you type in a value and click Enter:
 - 1) If the value is invalid, an error message displays with Retry, Cancel and Help buttons.
 - 2) Retry returns you to the typed-in value for editing and Cancel wipes out the typed-in value and returns you to the cell.
- I. Help icons and AutoFill buttons are available in the column headers.

Enter Census Data - Speed Jumps and Medicare

B. Zip, State and Marital Status - allowed for Spouse and Dependents.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	AUTO FILL State from zip	Zip Code	Home/Cell Phone	Business Phone	Email Address	B Marital Status
(i)	í	()	(j)	í	(i)	í	i	(i)	()	(\mathbf{i})	()
											Married
Employee	N		John		Doe	IL	60515				
Spouse			Jane		Doe	IL	60515				
Disabled Dependent			Peter		Doe	IL	60515				

C. Medicare Eligible – when Medicare Eligible is selected the Medicare HIC Number, Medicare Reason and Medicare Primary or Secondary are mandatory.

Relationship Code	Waive All Coverage (j)	Waive Reason Code (j)	First Name	Mid Init	Last Name	Medicare Eligible (j)	Medicare HIC Number ()	C Medicare Reason	Medicare Primary or Secondary i	Plan A Start Date i	Plan A End Date	Plan B Start Date ()	Plan B End Date (j
Employee	N		John		Doe	Y							
Spouse			Jane		Doe	Y							
Disabled Dependent			Peter		Doe	N							

Enter Census Data

- For Employment Status and Medicare Eligible columns, the cell value drives the display/hide behavior of the corresponding dependent data columns.
 - When you enter COBRA as the value in the Employment Status cell, additional COBRA columns will become available for completion. Similarly, entering IL Cont as the value will cause IL Continuee columns to display for completion.
 - A value of Y in the Medicare Eligible cell will cause Medicare columns to display. See "Table 2" in Technical References.
- Returning to the Group Information tab hides other tabs: Import Census Template tab, Error List tab and Help File tab.
 - To return to, and display the Import Census Template tab, click the Green button.
 - To return to, and display the Error List tab, click
 Green button and click File > Save.
 - To return to, and display the Help File tab, click the Help File tab.

SSN dashes

 If the source SSN value has dashes, paste into SCIT "as is". These values will be highlighted in yellow. On File > Save validation, dashes will be removed systematically.

Date values

- While typing dates include "/"
- If the date format in the source file is formatted with a different date format than MM/DD/YYYY, you can still copy and paste it into SCIT "as is". The date will be reformatted systematically to MM/DD/YYYY when you click File > Save.

Text values

- If source values are longer than the expected length, they are truncated systematically when you click File > Save.
- Values can be copied and pasted as needed onto the Census columns.

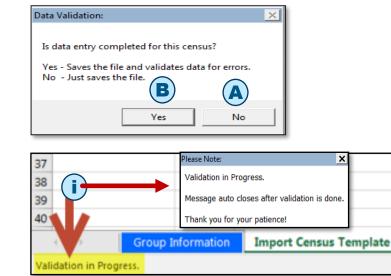

NOTE: Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.

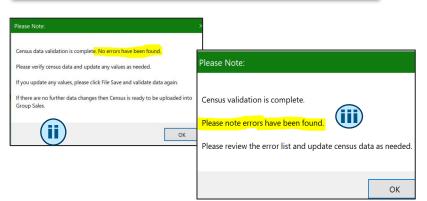

- If copying data from an external source, please make sure that the source column format matches the format of the corresponding Import Census Template column.
- If copy/pasting data from an external source causes cells to lock in SCIT, click File > Save to unlock the cells.

Data Validation

Once data entry is complete, click **File > Save** to validate the Census data. A **pop-up box** will display: **Is data entry completed for this Census?** with **Yes** and **No** buttons.

- A. Click No if you want to save existing data and return to complete the Census entry later.
 NOTE: Validation rules do not run.
- B. Click Yes if Census entries are complete. Existing data is saved. If values are blank in columns where the AutoFill feature is available, a default value will be entered systematically. Final validation rules will run.
 - i. Validation In Progress indicators will display:
 - Excel Status bar (bottom left corner)
 - Validation in Progress pop-up box
 - **ii. If no errors are found**, confirmation box displays and completed Census can be processed per current business process.
 - iii. If there are any errors, a message box displays indicating that errors have been found. Click OK.

Data Validation Error List

- A. To update the values, click the **Import** Census Template tab. Change the values as needed. You can toggle between the Error List and Import Census Template tabs.
- **B.** If there are data errors, the **Error List** tab will display:
 - In Cell column specifies the cell location of the error.
 - Error Description column specifies the column and the nature of the error.

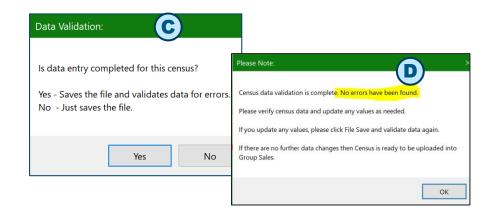

Once you have corrected any errors, validate data again by clicking **File > Save**.

- C. Select Yes in the Is data entry completed for this census? message box.
- D. If no errors are found, a confirmation box displays and completed Census can be processed per current business process.

In Cell Error Description

C/	Relationship Code is required.
D8	Gender is required for Employee, Spouse and Dependent(s).
E8	Date of Birth is required for Employee, Spouse and Dependent(s).
C9	Relationship Code is required.
D10	Gender is required for Employee, Spouse and Dependent(s).
E10	Date of Birth is required for Employee, Spouse and Dependent(s).
D11	Gender is required for Employee, Spouse and Dependent(s).
E11	Date of Birth is required for Employee, Spouse and Dependent(s).
D12	Gender is required for Employee, Spouse and Dependent(s).
E12	Date of Birth is required for Employee, Spouse and Dependent(s).
C13	Relationship Code is required.
D14	Gender is required for Employee, Spouse and Dependent(s).
E14	Date of Birth is required for Employee, Spouse and Dependent(s).

Generate Automation File for Middle Market

*** Before generating the automation file, be sure to run data validation.

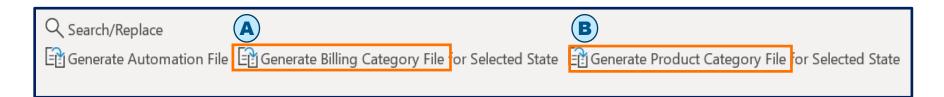

Q Search/Replace		
Contracter Automation File	E Generate Billing Category File for Selected State	Generate Product Category File for Selected State
	Custom Toolbars	

- A. From Excel Menu bar, click Add-ins option, then click
 Generate Automation file OR use the keyboard shortcut Ctrl
 + Shift + I.
- B. Does Group cover Domestic Partners? message box displays along with Yes and No buttons.
- C. If Yes button is selected, in the automation extract any DP (Domestic Partner) Relationship Code values will be highlighted in yellow for internal informational use.
- D. Confirmation box displays after the file has been generated.
 Click OK button to return to the Import Census Template.
- **E.** Generated file will be open in a separate Excel window and will be stored in the same folder as the Group's SCIT file with date and time stamp.
- **F.** If file is generated multiple times, a new file will be generated each time along with date and time stamp. The prior generated file(s) will not be overwritten.

Please Select	B	X
Does the G	roup cover Domest	ic Partners?
	Yes	No

Generate Billing Category and Product Category File for Middle Market Enrollment

NOTE: This extract can be generated as needed.

- A. From Excel Menu bar, click Add-ins option then click Generate Billing Category File.
- B. From Excel Menu bar, click Add-ins option then click Generate Product Category File.
- **C.** A separate file will be generated that lists enrolling Subscribers with Billing Categories.
- D. Confirmation box displays after the file has been generated. Click OK button to return to the Census Template.
- E. Generated file will be open in a separate Excel window and will be stored in the same folder as the Group's SCIT file with date and time stamp.
- **F.** If file is generated multiple times, a new file will be generated each time along with date and time stamp. The prior generated file(s) will not be overwritten.

On Successful Validation, Upload SCIT into Small Group & Middle Market Enrollment Tool

The upload steps have not changed.

- A. In the Small Group & Middle Market Enrollment Tool, navigate to the Group's Member Census page.
- B. Click the Import Census button.
- C. When the Import Census pops up, click Browse.
- D. Navigate to the folder that has SCIT with the group's filename.

- E. Select the file and click **Open**.
- F. Filename displays in the Select File to upload box.
- G. Overwrite existing Census information is selected by default. If needed, select Append radio button to add to existing Census information.
- H. Click the Load File button.

In SCIT, once Census data is validated and no errors are found, the Census is ready to be uploaded into Small Group & Middle Market Enrollment Tool.

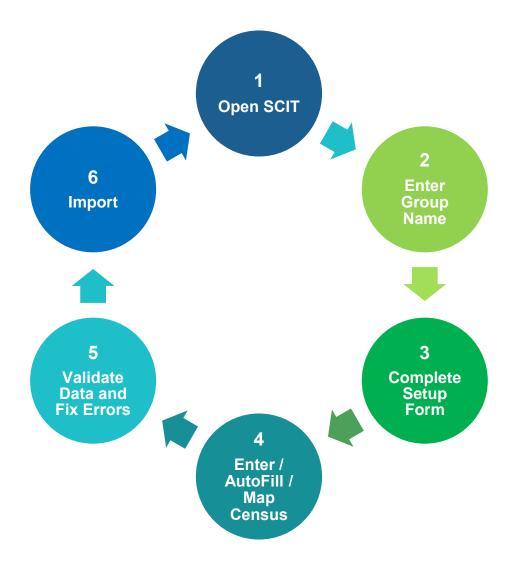

Latest Version Required....

Import Census
Note: Please download the updated template for TX division.
Download the Census Import Template or view an example of a formatted import file. Please refer to the Help file for additional details regarding the Import Census spreadsheet. Steps to save the Import Census Template 1. Click on the Census Import Template link and Save the file on your desktop. 2. Open saved Census Import Template, from the saved location, and select the appropriate Division from the drop down options. Click Continue. 3. Save to your desktop. 4. The Census Import Template is now ready to input the census information. Select File to upload: Choose File Outdated Teate Version.xls Consumer of the option will replace previously entered census information.
 Append - This option will add to existing census information Attention Error importing the data Please download the current census template version from the link above. indicates Error Message
1 indicates Warning Message

The imported template is the minimum version (**one version minus the current version**). If user imports a template outside minimum version, the following error message will display:

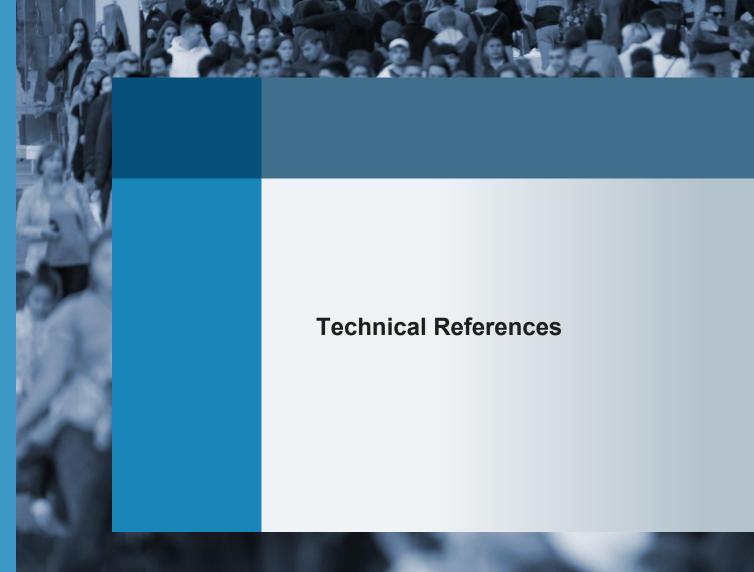

A. The imported census template version is out of date and is only valid until <MM/DD/YYYY>. Please download the current census template version from the link above.

Enter Census for the Next Group

To enter Census for the next Group, **File Close** prior group's open SCIT file.

Repeat Steps 1 through 6.

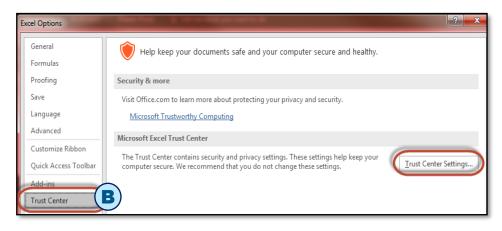

Enable Macros

If **Enable Macros** is not enabled each time SCIT is opened, you will need to click the **Enable Content** button to use tool.

Once Macros have been enabled the first time, you will not need to click the **Enable Content** button each time SCIT is opened.

- A. From Excel menu, select File > Options.
- B. From Excel's Options box, select Trust Center and then click on Trust Center Settings.
- C. From Trust Center box, select Macro Settings. Then, select the checkbox for Enable all macros.

WARNING: Once this option is turned on, open files with macros ONLY from a trusted source.

Throughout last 2023, Microsoft pushed out an updates to disable macros for security purposes. These updates disabled any macros contained in files downloaded from the internet or attached to emails. As a result, some users (depending on their Office version), need to remove the mark of the web due to the Security Risk below. If you see this message, follow the instructions on the next slide "Remove Mark of the Web"..

SECURITY RISK Microsoft has blocked macros from running because the source of this file is untrusted.

Learn More

х

These instructions are to be followed after a new version of SCIT is downloaded. Each time a new SCIT version is downloaded, the process will need to be repeated.

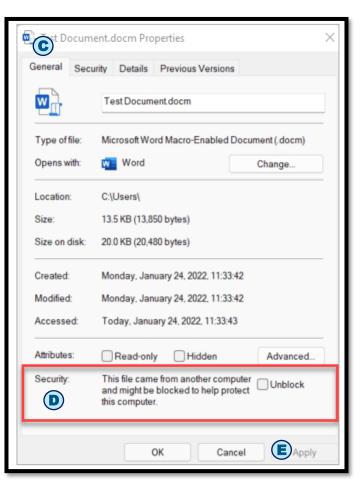

NOTE: BCBS has no control over this security update from Microsoft. Additional information on update can be found via link: <u>Macros from the internet will be blocked by default in</u> <u>Office</u>.

Macros – Remove Mark of the Web (Instructions)

SECURITY RISK Microsoft has blocked macros from running because the source of this file is untrusted.

For an individual file, such as a file downloaded from an internet location or an email attachment the user has saved to their local device, the simplest way to lock macros is to remove Mark of the Web.

- Save file to local device.
- B. Right-click on the file and select
 Properties from dropdown menu.
- C. Select the General tab.
- D. Under the Security section, select the Unblock checkbox.
- E. Click Apply button.

X

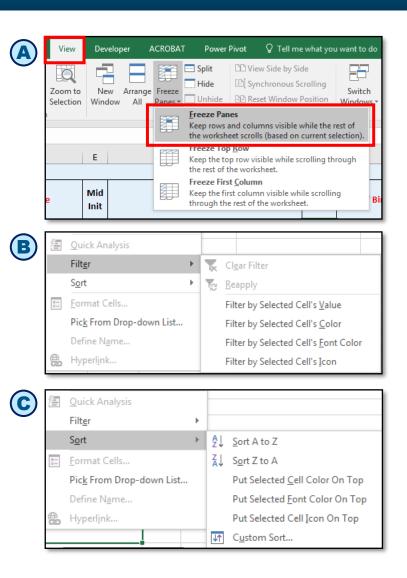

Freeze Panes, Filter and Sort Features

A. Freeze Panes as needed to make data entry easier.

- Click the first cell in the range you want to freeze.
- From Excel menu select View, then click Freeze Panes.
- Rows and columns before the Freeze Pane will be visible as you scroll through the rest of the columns and/or rows.
- To remove, select View, Freeze Panes and Unfreeze Panes.
- B. Filter Census data as needed.
 - Click in the cell, then right-click, and select Filter.
 - Select a Filter option as needed.
 - Apply and clear the **Filters** as needed.

NOTE: Even when the **Filters** are cleared the filter arrows will display. They will reset systematically and will not be displayed after you select **File > Save**.

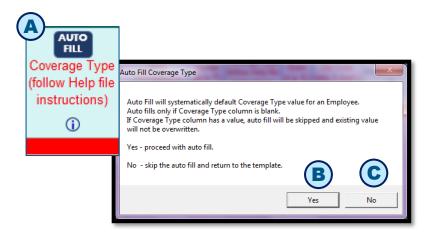

- C. Sort Census data as needed.
 - Click in the cell, then right click, and select Sort.
 - Select Sort option as needed.
 - Be sure to highlight all the data rows, columns A through BK.
 - WARNING: If column/row range is not selected correctly and Sort is applied, data will become jumbled.
 - Sort functionality is NOT available on the Error List tab.

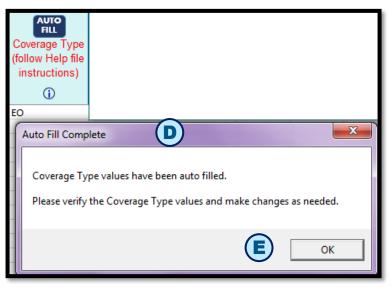

AutoFill Feature

AutoFill feature is available for select columns where **AutoFill** button is displayed in the header.

- A. Click AutoFill. Message box displays with information regarding the AutoFill for the column along with Yes and No buttons.
- B. Click Yes to proceed with AutoFill.
 - If the values in the AutoFill column are blank, then a default value will be systematically populated.
 - If there is an existing value in the AutoFill column then AutoFill will be skipped, and existing value will not be overwritten.
- **C.** Click **No** to skip AutoFill and return to the Template.
- D. Message box displays after AutoFill is complete.
- E. Click OK to close confirmation message "Please verify the auto-filled values and change these values as needed."

NOTE: Coverage Type AutoFill is used for illustration.

AutoFill Select Columns Reference Table

Columns with AutoFill	Description	Available In
State	Fills in State when Zip Code is present	SG/MM
Employment Status	AutoFills value of A or Active for Employee	SG/MM
